👤 PRESENTATION

166cm of pure energy, enthusiasm, and security in what I do. I am thrilled in having the opportunity to work in what I love and gain all the knowledge and experience every situation can offer. I am courageous and with many resources, I really want to feel useful, and I will give my 110% to achieve it. Counting with me in your team will end up being the winning bet.

💻 SKILLS

- SAP
- AutoCAD
- Inventor
- Python
- Arithmetic
- Office 365

- **DRIVING LICENCE:** B-1
- **MOTHER LANGUAGE:** Spanish

💡 VOLUNTEERING

Since 2018 I have actively participated in BEST, Board of European Students of Technology, a non-governmental student association, composed of local groups spread over 95 technological universities. I have organized and participated in courses, symposiums and competitions and since 2020 I am a member of the local board defending the position of Head of Human Resources.

🛍 WORKING EXPERIENCE

I have been working in student part time jobs since I was 18 but the most relevant one as engineer has been 6 months in the technical management and production departments (REPNAVAL) of Zamakona Yards Group, which is one of Spain's main shipbuilding and ship repair groups. It is specialized in repairing, rebuilding and overhauling of ships, offshore installations and Diesel engines.
