ANDREAS RIPOSATI

PERSONAL PROFILE

My name is Andreas Riposati and I am 22. I was born and raised in Italy. My mother is Danish and my father is Italian. Since I was a child, I have always spoken both languages and being bilingual made it possible for me, at the age of 18, to move to Denmark.

I am currently studying for a Master degree in 'Industrial Engineering and Management' and I hope to pursue a career, where I can combine my education as an engineer with my cultural background.

I consider myself an outspoken person but also a good listener and always willing to give a hand when needed.

CAREER

PRIVATE TEACHER
2014 – now

I have taught Italian as a private teacher and given homework assistance to high school students. Lately however, I have had to limit my teaching activities because of my studies.

ENGINEERING INTERNSHIP AT KRÜGER A/S
2017 - 2018

As a part of my undergraduate program I have been on an internship during my 5th semester, where I worked at Krüger A/S. The company is located in Søborg and specialized in constructing water implants. I worked on different projects, where I focused on optimizing some of the company's current workflows.

EDUCATION

ORDRUP GYMNASIUM (STX)
2014 - 2015

I completed my last year of high school in Denmark, and although it was a very challenging year, it is a choice that I have never regretted. I was exposed to a different way of teaching from what I had experienced in Italy. This taught me so much about Danish culture and made me feel ready to continue my education in Denmark. My A-levels in high school were in math and music, which reflect my interests.

DTU (BENG)
2015 – 2019

I have recently completed a bachelor degree in 'Manufacturing and Management', at DTU. It has been a fascinating journey, with many relevant courses and interesting group projects, where I had the opportunity to come in contact with many companies from many different industries.

CORE SKILLS

LANGUAGES
Danish - native

Italian - native

English – professional level both written and verbal (C1)

IT
Office package - especially Excel

Microsoft Project and Access

Basic VBA and GAS programming
